

NEWSLETTER NOVEMBER 2008

Price reduction series Softline Standard

On the basis of different customers requests and different procedures of rationalisation we have the ability to offer you a price reduction on our Softline Standard series. Our new price list is available on request.

REACH Registration, Evaluation and Authorisation of Chemicals

RUBA Thermoplast AG

REACH

Since 2007 our company is certified according to ISO 140001. We are therefore very keen to achieve the objectives of environmental protection measures. Presently we are intensely dealing with REACH and its corresponding alterations and effects. As a plastic processor we are manufacturer of goods; this means a downstream user. Therefore we are not obliged to any registration. Nevertheless we are aware of our responsibility for the exchange of information with suppliers as well as buyers about the concerned substances. We have already contacted our suppliers concerning all substances subject to admission control (> 0.1 %) and are now awaiting their feedback. Needless to say that we will fulfill our duty to furnish information. We will keep you informed about our further findings concerning REACH. The documentations of our raw material suppliers concerning REACH are filed [here](#). Additionally we have informations about SVHC [here](#) for you.

Labels and documents of delivery

For a certain time already we furnish our pallet labels with bar codes. You will find an [example](#) on our homepage as well as further information about labels and documents of delivery.

In agreement with our customers we also can provide a collective pallet within different consignments. It is marked with a red adhesive tape around. [Here](#) is the information for you.
